

# TPCS Remote Backup

Data corruption and loss of data costs companies millions of pounds every year. The loss of information cannot only result in an immediate loss of data and income, but it can have serious long term knock-on effects. TPCS utilises robust, proven systems, to provide you with a quick, simple and highly secure method of backing up your data. Prices start from as little as £10 per month.

## Pricing:

On-line backup pricing is based on the amount of compressed storage space used on the backup server. As a rule of thumb the backup server will compress data to between half and two thirds of the uncompressed size.

Service	Cost
1Gb	10.00
2	13.00
3	16.00
4	18.00
5	21.00
6	24.00
7	26.00
8	29.00
9	32.00
10	34.00
10 to 25 Gb	£3.40 per Gb
26 to 50 Gb	£3.20 per Gb
More than 50 Gb	£3.00 per Gb

All prices exclude VAT
